

THE RECOGNIZED LEADERS FOR
DOCUMENT CREATION AND PUBLISHING
SOFTWARE AND SERVICES.

Tandesa has signed strategic contracts with the most popular document creation and publishing software vendors. These vendors

deliver leading software applications for a wide variety of applications ranging from creating and manipulating PDFs and forms, generating high volume print, to providing on-demand document generation for bill presentment.

“ *Tandesa not only provided us the software we needed at best-in-market prices, their implementation and services team helped us meet our accelerated implementation timeframe.* ”

Tandesa has worked with dozens of Human Resource consulting firms and print service vendors to execute effective employee and market communication campaigns. We leverage our partners' software products to create compelling, informative and aesthetic documents for applications ranging from invoices, individual statements to quarterly and annual statement of benefits. Our professional services team has successfully implemented hundreds of projects for our customers.
